

Indo-German Orthopaedic Foundation

Master's Course on Pelvic Fractures, Revision Knee Replacements and Revision Hip Replacements

March 12 - 13, 2011
Chennai, India.

Indo-German Orthopaedic Foundation

Dear Colleague,

Greetings from the Indo German Orthopaedic Foundation, Chennai.

Ever since the first AO course ever in India held in Chennai in the year 1977 India has kept abreast with the advancements in the west in the field of Orthopaedics. Recently, with the huge spurt of economic growth we have started seeing a pattern of injuries consistent with a developed society. The treatment of pelvic fractures is a complex and challenging area which is not clearly understood. Further, with the increasing number of joint replacements being done year on year, we are now noticing a surge in the revision hip and knee arthroplasty cases. The IGOF masters' course in pelvic fractures and revision joint arthroplasty aims to address these issues. An international faculty along with Indian counterparts will give lectures and perform live surgery on 12th and 13th of March, 2011. I invite all of you to MIOT Hospitals, Chennai, for what promises to be a feast in the field of trauma and orthopaedics.

Thanking you,

Yours sincerely,

Dr. Prithvi Mohandas
Secretary, IGOF

Hip Surgery Dr. Sarah Muirhead
Allwood

12.30 Hrs. LUNCH

13.00 to
16.00 Hrs. Live Surgery

The Gopurams of Tamil Nadu – Poetry in Stone.

Tamil Nadu, 'Land of Temples', is home to more than 30,000 temples. The rulers of various dynasties - Cholas, Pandyas, Pallavas, Nayakas, constructed these temples over centuries. The earliest temples were built in brick and mortar. However, by the 7th century AD, a unique style of temple construction emerged where temples were hewn out of caves. The Pallavas were the first to build temples out of stone. They were followed by the Cholas (900 -1250 AD) who were great temple builders. Under them the Dravidian style of temple architecture flourished magnificently.

Dravidian temples have walls enclosing the whole temple complex. Elaborate and

often magnificent gateways called 'Gopurams' are set along the axes of these walls, which lead devotees into the sacred Courtyard. Over the sanctum rises a pyramid shaped tower called 'Vimana'. Carved in steps, the vimana features intricate sculptures of deities, warriors, kings and dancers. These temples were not merely places of worship but a large part of the social and cultural life of the people, revolved around them.

Famous temples

These include the Brihadeeswara temple at Tanjore, Meenakshi temple, Madurai, Nataraj temple at Chidambaram and the Kailasanath temple in Kancheevaram.

MIOT Hospitals – Pride of Chennai

MIOT Hospitals, this year's venue is a premier multi-specialty hospital and a renowned centre for orthopaedics. MIOT was the first hospital to bring Computer Navigated Surgery to the Asia Pacific and is a pioneer in promoting Minimally invasive techniques, keyhole and pinhole surgery. MIOT's orthopaedic department recently introduced the concept of 'Joint for Life' in replacement surgery. MIOT's orthopedic team has completed 35,200 surgeries, including hip and knee replacements, on patients from all over the world.

Application Form

IGOF Master's Course on Pelvic Fractures, Revision Knee Replacements and Revision Hip Replacements

March 12 & 13, 2011

I.G.O.F.

3/108, Satya Nagar,
3rd Street, Ramapuram Road,
Manapakkam, Chennai 600089.

Dear Sir,

I would like to be considered for a seat in the IGOF Master's Course on Pelvic Fractures, Revision Knee Replacements and Revision Hip Replacements to be conducted at MIOT Hospital, Chennai.

Please find enclosed my completed application form.

I would like my name to be written on the Course Completion

Certificate as: _____
