

Indo-German Orthopaedic Foundation

Master's Course Final Programme

**July 30 - August 01, 2010
Chennai, India.**

Indo-German Orthopaedic Foundation

Dear Colleague,

Greetings from the Indo German Orthopaedic Foundation, Chennai.

Over the last 3 years the Indo German Orthopaedic Foundation has focused on cutting edge technology and recent Orthopaedic developments. We have brought together great minds to discuss new advancements and facilitate their application in the Indian scenario.

We now feel that the requirement for present day Orthopaedics is to dig out the less attractive though hugely problematic aspects and debate these in the open. The IGOF Master's Course on Spinal Surgery, Trauma and Joint Replacements from July 30 to August 1, 2010 aims to do just that. The uniqueness of this course is that each day is devoted to a single theme - Spinal Stabilisation, Metaphyseal Fractures, Joints for Life. As usual, experienced Orthopaedic Surgeons from U.S.A., Germany, U.K., Switzerland and from various parts of India will form the faculty and I invite you to what promises to be a true feast of Orthopaedic Surgery. Live surgeries, case presentations and free papers are planned for the afternoon session every day.

Prof. Dr. Devadoss from Madurai will inaugurate the Symposium on Friday, July 30, 2010 at 8.00 a.m. at the MIOT Auditorium. All are welcome.

With best regards,

Dr. Prithvi Mohandas
Secretary, IGOF

MIOT Hospitals – Pride of Chennai

MIOT Hospitals, this year's venue is a premier multi-specialty hospital and a renowned centre for orthopaedics. MIOT was the first hospital to bring Computer Navigated Surgery to the Asia Pacific and is a pioneer in promoting minimally invasive techniques, keyhole and pinhole surgery. MIOT's orthopaedic department recently introduced the concept of "Joint for Life" in replacement surgery. MIOT's orthopedic team has completed 35,000 surgeries, including hip and knee replacements, on patients from all over the world.
