Join us on 1,2,3 March 2013 at Bhubaneswar, Orissa for this path breaking feast of Trauma, Arthroscopy and Joint Replacement.

Bhubaneswar, the 'Cathedral City', was once the capital of an ancient kingdom. Today this bustling centre for commerce and religious activity is Odisha's modern capital. Having merged its intriguing past so uniquely with its modern aspirations, it forms an integral link in the Golden triangle that incorporates the holy city of Puri and Konark, for the tourists that flock to pay their homage to the religious, cultural and natural wonders that abound here.

In 2009, Orissa was ranked ninth among the Indian states in terms of software export by NASS-COM. And today Bhubaneswar has been chosen as the most preferred place for conducting IT/ITES business. In 2012, Bhubaneswar was ranked third among Indian cities, in terms of starting and conducting a business by the World Bank. Bhubaneswar has been traditionally home to handicrafts industry, including wood carvings, patta painting and many others which significantly contribute to the city's economy.
