Day 2: 20th January, 2018 (09:00am - 09:30am)

Topic: Four-part fracture in elderly patient

Fix or hemi

Dr. Karthik Selvaraj

(Vs)

RSA

Dr. Ram Chidambaram

Chairperson:

Prof. Ulrich Stockle

NIGHTMARISH COMPLICATIONS (after RSA)

Day 2: 20th Jan, 2018 (02:15pm - 03:15pm)

Shoulder Arthroplasty is a relatively new concept in India. Reverse Shoulder Replacement is catching on like wild fire. From being the last resort operation a few decades ago, this is now being offered as a first choice in selected scenerios. However, this surgery is complex and has a steep learning curve. It also requires meticulous attention to detail to avoid complications in the long run.

We request our Experts to share their worst complication after RSA and how they managed it:

- Dr. Alexander Van Tongel
- Dr. Raghuveer Reddy
- Dr. Karthik Selvaraj
- Dr. Stefan Doebele
- Dr. Nilesh Kamath
- Dr. Nandan Deepthi Adla
- Dr. KN Subramaniam

Chairpersons:

Dr. Jaap Willems

Dr. Ramakanth Agarwal
